

Team Name: AARDVARK (Hannah DeFazio, Nik Lamb, Ben Myrick, Jenna Ryan)

Report Number: 2

Reporting Week: September 3rd - September 9th

Summary of work completed in prior week:

We had our requirements interview this week. We began by having a meeting to determine what questions we will ask. This was productive because we were able to clarify what aspects of the project that we were confused by. During this meeting, we picked out what questions were the most crucial to ask and organized everything in a file. Once we were in the requirements interview we addressed all of these questions. Jenna took notes during the interview. These notes will be discussed in a future meeting.

We also had a meeting about using the Kinects. Steps from this meeting were shared throughout the group so we can access them when we get started on our work with the Kinects.

Summary of work planned for next week:

To-Do's for the coming week:

- Go over the requirements interview
- Determine if we want a follow up interview
- Go over the Kinect steps

Open issues and action plan to resolve them:

No open issues currently, group thus far has been respectful and directed.

Project management summary

Team member	Tasks completed	Hours worked for week	Total hours
Hannah DeFazio	Team meetings, requirements interview, computer setup/robot internet issues, class time	4	9
Nik Lamb	Team meetings, requirements interview, class time, RI interview organization	3	8.5
